Providing Aid Through COVID

The past year has been hard on all of us and we recognize that families who never previously needed our services may need us now. We are able to provide cleaning kits, hygiene kits, diapers, and baby wipes to anyone who needs them once per month. We are also able to provide clothing and shoes to anyone in need of them every three months.

If you find that you could use these items, please email grace@thewishproject.org

BITS BAGS

Basic Items for Toddler Success

Our [Bits Bag Program](#) was created over 10 years ago at the request of our partner agencies to address the need for age appropriate toys in their clients homes to help infants and toddlers with their development. Having access to these toys will allow for parent and child interaction and play at home. We provide BITS Bags to children who may experience developmental delay due to lack of these simple interactive toys to stimulate them.

During our first year, we gave out almost 500 bags. Last year that number grew to 1,000 and we anticipate the need to be even greater this year. With the current Covid pandemic, many families are living in isolation, without access to much needed items to provide stimulations to the growing minds of their children. Our goal is to get these bags into the hands of all of the children that need them and, with your help, we can.

There are several ways in which you can help. You can donate complete bags, donate supplies for bags, or [make a monetary donation](#) to sponsor a bag. If you prefer to shop online and ship directly to the warehouse, you can purchase items from our [Amazon BITS Bag Wish List](#)
